AUGUST
Minority Donor
Awareness Month

Did you know that donating stem cells (like a blood donation) is the way that

most transplants for bone marrow failure patients are done? Ask everyone you know to register today at bethematch.org.

A phase I/II Study of REGN7257 (Anti-interleukin 2 receptor subunit gamma [IL2RG] monoclonal antibody) in patients with severe aplastic anemia that is refractory to or relapsed on immunosuppressive therapy

[Clinical Trial Information](#)

AAMDSIF does not recommend, endorse, or make any representation about the efficacy, appropriateness or suitability of any clinical trial listed on our website. Pharmaceutical company-sponsored content is highlighted only to give additional information about the trial. All trials are listed on <https://clinicaltrials.gov/>. Always seek the advice of your physician or other qualified health care provider with any questions you may have regarding a clinical trial, and never disregard professional medical advice or delay in seeking it because of something you have read on our website.

MDS Update

MDS IN THE NEWS:

FDA grants **Breakthrough Therapy Designation** for Venclexta in combination With Azacitidine for the treatment of patients With Myelodysplastic Syndromes - Find out more [here](#).

FDA approves Belumosudil for **chronic graft-versus-host disease** - Read the announcement [here](#).

AAMDSIF is currently conducting a **unique survey** aimed at better understanding the emotional and mental health need of MDS patients and caregivers. We'll use this information **to improve our resources and support** services and we'll also share the findings with patients, families, and health care providers.

If you're interested in participating in this study, send an e-mail to hok@aa-mds.org to request a link to the survey, or start [here](#). Any information provided in the survey will be treated with the strictest confidence and will remain **entirely confidential**. The survey will take about **25 minutes** to complete and you will be **compensated** for your time.

Dr. Mikkael Sekeres

Recording Now Available!

Establishing Goals of Therapy While Managing MDS

Dr. Hetty Carraway

The webinar helps patients and caregivers develop a clearer understanding of treatment options, side effects, quality-of-life changes, and financial impacts associated with MDS. Watch [HERE](#).

Imagine being young and thousands of **miles away** from family.

Now add a diagnosis of **MDS**.

Discover how Shauna lives each day to the fullest, **finding the beauty** in every person [here](#).
